- 1.- Volunteers must be 18 or older.
- 2.- English is the official language inside the groups but due to the nature of some of the projects a basic knowledge of Spanish could be required.
- 3.- It would be very good if volunteers could come with a preparation for projects in Latin American countries in order to reduce the cultural shock, but also all volunteers will have an orientation session the first day of each workcamp.
- 4.- We ask the volunteers to stay during the whole duration of the project.
- 5.- The departure day for the group will be the last day of the workcamp.
- 6.- Volunteers will need to bring sleeping bag and air mattress.
- 9.- Volunteers have to pay the Fee of the projects at their arrival on the projects.
- 10.- Volunteers are working 5 days a week between 4 and 6 hours a day. Generally on the week ends the group will visit different part of the region where they will be.

11- In all the projects the volunteers will be self managed with the help of the leaders. They will cook their food, clean their lodging and decide together what kind of food to buy, and how to use their budget for the leisure time.

12- Volunteers have to be open minded and flexible about Peruvian culture and food.

Peru SONQOYKIPI does not count on any financial support from the Peruvian government to run the workcamps. The only financial resources are the extra fees of the participants, this year the extra fees are 210 EUR0, which covers all the expenses of the volunteers during the duration of the project: Food, Hosting, Some Leisure activities, Non personal equipment

This year PERU SONQOIKIPY is opening 30 international workcamps in Peru.

The first project is starting in July 2008 and the last one will finish in May 2009.

We will give to your volunteers an orientation session the first day of all the workcamps, to facilitate their good integration in the projects and in the Peruvian culture.

Don't forget that we are proposing intensive Spanish courses in Ayacucho City before all the workcamps for the volunteers who want or need to learn Spanish basic knowledge; all the dates of this training courses are mentioned in the summary list, as well as in all the info sheets. Your volunteers have to mention in the info sheet reply slip if they want to take part in them or not. It is a really good course and we recommend it to your volunteers. Since we started our Spanish Courses before the workcamps since 2003 all the participants of were really happy, it was a great success.

In all the projects one to two leaders will be present. Generally we try to have a foreign leader with a national.

This cost is inexpensive compared with the traditional language courses in the private schools of Spanish in Peru and the people giving the course are professional teachers of Spanish, the classes are 3 hours a day during 5 days and the participants have a lot of home work to do. There will be a free day generally on Sunday, to give the chance to the participants to visit the nearby towns and interesting places and to know better each other. This course was a really good success since the year 2003 we strongly recommend to your volunteers to take part in it. If they don't speak a good Spanish, it will help them to enjoy even more their workcamps. It is also the opportunity to spend one week in the beautiful city of Ayacucho in a relaxing atmosphere.
